## Portfolio

### SUMMARY

Frontend Developer with hands-on experience in building responsive, user-focused web interfaces using **React.js**, **Next.js**, and **Tailwind CSS**. Skilled in transforming UI designs into interactive, high-performance web experiences and collaborating across teams to deliver saleable digital products.

- Proven experience in converting existing UI concepts into production-ready **landing pages**, maintaining and improving admin panels, and ensuring smooth integration between frontend components and backend APIs.
- Proficient in **component-driven architecture**, **state management** (**useState**, **useEffect**), and reusable design patterns.
- Strong problem-solver focused on **performance optimization**, **code refactoring**, and maintaining consistent UI styling.
- Adept in **API consumption**, form handling, and implementing dynamic components such as modals, tables, and profile management systems.
- Excellent collaborator who thrives in team environments — communicates clearly with designers, backend developers, and stakeholders to deliver quality user experiences.
- Fluent in English, highly organized, and detail-oriented, with strong problem-solving skills and the ability to meet deadlines while managing multiple project tasks

### TECHNICAL SKILLS

**Tools:** React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Ant Design, Styled- Components, Git, GitHub, VS Code, Node.js, RESTful APIs, Swagger UI, Postman, Yarn, Vercel, Netlify, Google reCAPTCHA, Figma, Canva.

**Skills:** UI Development, Responsive Design, Component-Based Architecture, State Management (useState, useEffect), API Integration, Problem Solving, Debugging, Version Control, Collaboration, Web Performance Optimization, Clean Code Practices, UX Implementation, Attention to Detail, Time Management, Adaptability, Communication, Continuous Learning.

## WORK EXPERIENCE

### Frontend Developer | Jolo Logistics

November 2024 to Present

- Designed and developed the landing page, achieving a **95% Figma-to-production accuracy rate.**
- Onboarded vendors onto the platform, ensuring smooth setup and optimal visibility for their stores.
- Managed and maintained the platform's **Admin Panel**, implementing UI/UX optimizations and fixing performance issues.
- Identified and resolved errors across the web store, improving system reliability and user experience.
- Collaborated closely with backend engineers to handle **API integration** and data synchronization.
- Streamlined product listings in the Admin Panel, reducing load times and improving overall system efficiency.

### Frontend Developer | Evendy Services

April 2024 to October 2024

My Achievements:

- Designed and implemented the platform's landing page, translating design concepts into responsive, production-ready code.
- Collaborated closely with backend developers to ensure accurate **API integration**, particularly for vendor registration and event management functionalities.

- Developed and maintained interactive features, including event creation forms, rating systems, and event display tables, improving overall user experience.
- Optimized frontend performance and ensured consistent responsiveness across all device types.
- Participated in UI/UX reviews to maintain design consistency and enhance accessibility.
- Contributed to the coordination and technical setup of hosted events, supporting real-time platform updates and engagement.

#### Frontend Developer | Connecticuz (Volunteer Role)

May 2024 to July 2024

- Contributed as a volunteer frontend developer during the platform's early development stage.
- Assisted in implementing initial UI components and testing core features for the MVP phase.
- Collaborated with team members to refine interface layouts and improve usability before deployment.

## EDUCATION & QUALIFICATIONS

- Bachelor of Science (B.Sc.) in Pure and Applied Chemistry – Federal University of Agriculture, Abeokuta, Ogun State, Nigeria.  
*Graduated 2024*
- ALX Africa – Professional Development in Frontend Engineering (*Ongoing*)  
Focused on building advanced frontend engineering skills, professional readiness, and practical project experience.
- JavaScript Bootcamp (Certificate of Participation) – Completed 2024  
Focused on fundamental and advanced JavaScript concepts, including DOM manipulation and asynchronous programming.
- Zuri Internship Program – Frontend Developer Track (2023 & 2024)  
Completed the training phase, gaining exposure to version control, collaborative development, and real-world project simulation.
- Frontend Development Bootcamp – 2023

Participated in an intensive program focused on React.js, UI implementation, and responsive web design.
